### Workplace Climate Survey February-March, 2017

With the support of President Susan Herbst, the Something's Happening Committee, an ad-hoc group that addresses workplace climate at the University, is sponsoring its 2<sup>nd</sup>

University-wide "Workplace Climate Survey". The survey is available to all UConn employees at the Storrs, Regional, and School of Law campuses.

This survey is an effort to gather information from UConn employees about your work experiences and perceptions. The information from the survey will provide guidance to the Something's Happening Committee and will be analyzed against the results from the 1<sup>st</sup> Workplace Climate Survey conducted in Fall, 2012.

It is anonymous, and results will never be reported with a workgroup of fewer than 10 employees. The survey will be open for a period of one month. Each employee will be afforded time during the workday to complete the survey

**Most employees will receive UConn email providing on-line access. However, please note below the dates, times, and locations you may go to take the survey in person on a computer in English or a paper copy in English or Spanish.**
