Meet the needs of the patient through innovation in education, health care delivery and health promotion

Recognize and support professionalism, cultural diversity and social responsibility

Realize the maximal potential of our students, faculty and staff.
Our vision is that the Nayden Rehabilitation Clinic name remains synonymous with excellence in providing rehabilitation services. We strive to inspire critical analysis and clinical research and to become the premier rehabilitation practice supporting clinical education.
MISSION STATEMENT

Our mission is to provide rehabilitation services to the University and surrounding community utilizing treatments that are evidence-based and culturally competent while exhibiting fiduciary responsibility to the patient and to society in general. We additionally strive to instill in our clinicians and our students the desire to ask pertinent clinical questions and the will to contribute to the body of evidence supporting physical therapy practice.
