Commitment to Diverse & Inclusive Learning & Working Environments
Policy: Affirmative Action & Equal Employment Opportunity

- UConn is an AA/EEO employer. Our policy is to comply with all state and federal laws and regulations that prohibit employment discrimination. Employment search process is strictly monitored to ensure compliance. All services and programs are to be provided in a fair and impartial manner.

- Equal Employment Opportunity: Equal employment practices under which no individuals are excluded from consideration, participation, promotion or benefits because of a protected class. EEO is achieved through Affirmative Action.

- Affirmative Action: Results-oriented practices/programs that eliminate the effects of discrimination and ensure equal employment opportunity in hiring or recruitment, transfer, promotion, or training.

- Annual State and Federal Affirmative Action Plan
  - [equity.uconn.edu/search-process/](http://equity.uconn.edu/search-process/)
Commitment to Diverse & Inclusive Learning & Working Environments
Policy Against Discrimination, Harassment, and Related Interpersonal Violence

- Prohibits discrimination, harassment and related forms of interpersonal violence in the working and learning environments

- University employees must report any incidents of sexual assault, intimate partner violence, or stalking involving students immediately to OIE

- Managers must report any incidents of discrimination, harassment or related interpersonal violence, including inappropriate amorous relationships, to OIE
  - Failure to report known incidents is a policy violation

- Provides specific guidance regarding amorous relationships in the instructional and employment contexts
  - “Amorous relationships” under the policy means an intimate, sexual, and/or any other type of amorous proposal, encounter or relationship, whether casual or serious, short-term or long term

- All forms of non-consensual sexual contact prohibited
Commitment to Diverse & Inclusive Learning & Working Environments
Amorous Relationships/Instructional and Employment Contexts

- **Instructional Context**
  - Faculty/staff relationships with undergraduate students are **prohibited**
  - Faculty/staff relationships with graduate students are **prohibited** if the graduate student is actually under that individual’s authority (authority includes teaching; formal mentoring or advising; supervision of research and employment of a student; exercising substantial responsibility for grades, honors, or degrees; and involvement in disciplinary action related to the student)

- **Employment Context**
  - Faculty/staff relationships with employees currently under their supervision are prohibited

- **Existing Romantic Relationships**
  - Relationships that existed prior to joining the University must be disclosed to OIE by the person in a position of authority before accepting a new supervisory role
  - Relationships that develop that are in violation of the policy must be disclosed immediately by the person in a position of authority
When students are sexually harassed or assaulted in the learning environment, a college or university will be liable if a University employee with authority to address the harassment and institute corrective measures on the school’s behalf receives actual notice of, and is deliberately indifferent to, the harassment or assault.

The U.S. Department of Education’s Office of Civil Rights extends the obligation to respond beyond those who actually have authority to address the harassment, to any individual “who a student could reasonably believe has this authority or responsibility” to help.
Commitment to Diverse & Inclusive Learning & Working Environments
Sexual Assault, Intimate Partner Violence and Stalking

- Promotes campus safety and ensures victims receive full range of University support and reporting options
- Requires all employees who witness or receive a report of sexual assault, intimate partner violence and/or stalking to contact OIE as soon as possible
  - *If you witness any crime, call the police*
- Private vs. confidential victim conversations

2 If enrolled in HEP, frequency limits and cost share are applicable; however, periodontal maintenance and periodontal root scaling & planning do not apply to the annual $500 maximum.
